

SS GLOBAL FOODS

QUALITY FOOD, GLOBAL TRUST

www.ssglobalfood.com

Our Story

SS Global Foods is a global trading and export company specializing in the sourcing, supply, and distribution of premium food and agricultural commodities. With a growing presence across 35+ countries in the Middle East, Africa, Europe, and the USA, we connect trusted producers with international markets through reliable sourcing and efficient logistics.

Our strength lies in delivering consistent quality, competitive pricing, and dependable supply. From procurement and quality control to documentation and shipment, we manage every stage with a strong focus on efficiency, transparency, and customer satisfaction.

Through our brands Mubarak and DORA, as well as customized private-label solutions, we offer a diverse range of products tailored to the requirements of international buyers and distributors.

At SS Global Foods, our vision is simple: to build long-term partnerships by making quality food products accessible, reliable, and competitively priced in markets worldwide.

Indian Basmati Rice

Sourced from the mineral-rich plains of Northern India, our Basmati rice is defined by its majestic aroma and extra-long, slender grains. Adhering to the most stringent international food safety standards, our varieties offer a non-sticky, fluffy texture that serves as the perfect foundation for gourmet culinary creations.

Variety	Length (Average)
1121 Raw / Steam / Golden Sella	8.35 mm+
1509 Steam / Golden Sella / Sella	8.40 mm+
Pusa Steam / Sella	7.70 mm

Indian Non- Basmati Rice

Sugandha (Steam/Sella/Golden)	7.80mm - 7.90mm
Sharbati Sella	7.05mm
PR 11 (Steam/Sella/Golden)	6.70mm+
Sona Masoori Steam	5.50mm
IR64 Raw/Parboiled (5% - 100% Broken)	5.90mm - 6.00mm

Sugar

Sugar is a carbohydrate primarily used as a sweetener in food and beverages, derived from sugar cane and sugar beet. The most common form is sucrose. It enhances flavor, texture, and preservation, but should be consumed in moderation for a balanced diet. Common grades include IC45, IC100, IC150, and IC600-1200, which vary based on refining processes and crystal size.

White Refined Sugar (ICUMSA 45)

Sourced from India and Brazil, our premium White Refined Sugar undergoes a refining process to eliminate molasses, ensuring a pure and sweet taste. Perfect for diverse uses, we have been exporting ICUMSA 45 sugar in large quantities to global markets for many years.

White Crystal Sugar (ICUMSA 150 / ICUMSA 100)

Our White Crystal Sugar, sourced from India and Brazil, is a high-quality, 100% water-soluble sucrose product with a stable crystalline structure. Customizable to client specifications, this sugar is rigorously tested for purity before delivery. We specialize in supplying ICUMSA 150/100 sugar to global markets with consistent quality.

Raw Sugar (ICUMSA 600–1200)

Our Raw Sugar, with ICUMSA levels of 600–1200, the most natural form of sugar, is hygienically processed and rich in calcium, iron, and other mineral salts. It is free-flowing and ideal for daily home consumption. Sourced from India and Brazil, our Brown Sugar meets high-quality standards and is perfect for both domestic and industrial use.

EDIBLE OILS

At **SS Global Foodstuffs**, we provide top-quality edible oils to meet the diverse needs of households, food industries, and businesses worldwide. Our offerings include refined sunflower oil and premium-grade palm oil, ensuring purity, flavor, and nutrition.

Refined Sunflower Oil

Our refined sunflower oil is sourced from the finest sunflower seeds and undergoes a meticulous refining process to ensure exceptional quality, purity, and health benefits.

Palmolein Oil

We supply premium palm oil in various grades (CP06, CP08, CP10) tailored for cooking, frying, and food manufacturing processes.

Packaging Sizes : 500ml, 1ltr, 1.8ltr, 2ltr, 5ltr ,Pet Bottles ,
18ltr Tin , 10ltr , 20ltr and 25ltr Jerry Can

Wheat Flour

Wheat flour is a finely ground powder made from wheat grains, widely used for human consumption. Wheat varieties are classified as "soft" or "weak" when they have low gluten content and "hard" or "strong" when they have high gluten content.

Whole Wheat Flour (Chakki Atta): Commonly known as "Chakki Atta" in India, it is an essential ingredient for preparing traditional dishes like Chapattis, Puris, and Parathas, forming a staple diet in Indian households.

All-Purpose Flour (Maida): Known as "Maida," this finely milled wheat flour is ideal for making pastries, cakes, pasta, and other delicacies requiring fine-textured flour.

At SS Global Foods, we ensure the hygienic packaging of premium-quality wheat flour to maintain its freshness and quality.

Available Varieties:

- Whole Wheat Flour (Chakki Atta)
- All-Purpose Flour (Maida)

Spices

At SS Global Foods, we source and supply premium-quality spices, carefully selected for their natural flavour, aroma, freshness, and purity. Our range is suitable for international food manufacturers, distributors, retailers, and private-label customers.

Available Varieties:

- **Black Pepper**
- **White Pepper**
- **Dry Ginger**
- **Star Anise**
- **Cinnamon / Cassia**
- **Dried Chili**
- **Ground Black & White Pepper**

We ensure consistent quality, hygienic packaging, and reliable supply for global markets.

Desiccated Coconut

Cashew Nuts

Robusta Coffee

Arabica Coffee

Coconut, Cashew Nuts & Coffee

At SS Global Foods, we source and supply carefully selected agricultural products, maintaining high standards of quality, freshness, and reliable international supply.

Dedicated Coconut : Premium-quality desiccated coconut, carefully processed from fresh coconut to retain its natural flavour, aroma, and texture. Ideal for bakery products, confectionery, sweets, desserts, food processing, and culinary applications.

Cashew Nuts: Carefully selected cashew nuts known for their rich taste, creamy texture, and nutritional value. Suitable for retail, food processing, confectionery, and bulk distribution.

Robusta Coffee: Strong and full-bodied coffee with a rich aroma and higher natural caffeine content. Ideal for coffee blends, instant coffee, and commercial applications.

Arabica Coffee: Premium coffee known for its smooth flavour, delicate aroma, and balanced taste. Suitable for specialty coffee, roasting, and premium blends.

Our Focus:

- Consistent quality
- Hygienic handling & packaging
- Reliable global supply
- Bulk & private-label solutions
